# CELEBRATE!

## WE'RE GLAD YOU'RE HERE.

### Welcome to Celebrate 2025!

This year's festival brings a fresh new format that reflects the depth, diversity, and vibrancy of Walla Walla Valley Wine. We've expanded beyond a single-varietal focus to highlight everything that makes this region one of the most exciting wine destinations in the world.

Over the next three days, experience the very best of the Walla Walla Valley—vineyard tours, library wines, collaborative dinners with winemakers, masterclasses and a lively downtown Block Party. Whether you come to taste, celebrate, or simply soak in the Walla Walla way—where time slows down and life feels unhurried—we hope you leave with a deeper connection to this extraordinary place and the people who bring it to life.

Please remember, the Walla Walla Valley is a small, rural community. Complimentary shuttles to scheduled events are outlined on page 9. If you'd like to rideshare, scan the QR code on page 8 to access Wallaround, our local independent ride share service.

The Walla Walla Valley Wine team is here to help—if you need anything at all, don't hesitate to reach out.

Cheers ~

Liz, Tracy, Jaiden & Kristin

## THE REGENERATIVE EDGE: WINE, FARMING & THE FUTURE

Regenerative agriculture is more than a trend—it's a call to action. Across the Walla Walla Valley, growers and producers are embracing living soils, biodiversity, and climate-smart farming—not just to preserve terroir, but to redefine it.

This masterclass, developed in collaboration with Jean-François Pellet and pioneering work of Chris Banek, principal of Banek Winegrower Management, convenes leading experts in soil health, sustainable viticulture, and visionary wineries. Together, the panelists and experts explore how regenerative practices are shaping winegrowing strategies, enhancing wine quality, and meeting the expectations of today's conscious consumer.

At the intersection of flavor and responsibility, the future is being farmed.
